THE GLOUCESTER DIRECTORY MASSACHUSETTS 1927-1928

COMPRISING ALSO THE TOWN OF
ROCKPORT

Containing

Alphabetical Section (Gloucester, page 129; Rockport, page 391). Gives names, occupations and addresses of men and women eighteen years old or over, also all business houses. Dates of deaths during the previous year are given and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department (the wife's name being in parentheses) with much other information that cannot be found elsewhere.

Business Directory (Gloucester, page 341; Rockport, page 431). All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Street Directory (Gloucester, page 33; Rockport, page 384). A complete list of Streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

An alphabetical list of Halls, Blocks and Buildings from which street and number may be found for addresses which only give name of a certain building.

Advertising Department (Page 65). Where more information than is possible to give under the headings is placed on file for buyers' and seller's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map (Opposite). The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Miscellaneous Information (Gloucester, page 7; Rockport, page 386). Organization of City Departments, giving officers—Cemeteries—Post Office branches—Parcel Post zones and rates—Churches and ministers—Societies, Institutions, etc., with officers—Courts—Population tables—Calendar, etc.

STREET DIRECTORY

COPYRIGHT, 1927, SAMPSON & MURDOCK CO., BOSTON, MASS.

Giving the location of Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Prospect Street No. 87 is located, you look at Prospect Street, and find that Elm Street runs from 81, and Chestnut Street from 93, showing that 87 would come on the right, between Elm and Chestnut Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

Gloucester Chamber of Commerce

GLOUCESTER—ROCKPORT—ESSEX

Manager—LAWRENCE J. HART

“It ain’t the guns and armament, nor funds that they can pay,
But the close co-operation that makes them win the day—
It ain’t the individual, nor the army as a whole,
But the everlastin’ teamwork of every bloomin’ soul.”

—Rudyard Kipling.

THE GLOUCESTER CHAMBER OF COMMERCE

IS ORGANIZED CO-OPERATIVE EFFORT TO ADVANCE THE
CIVIC, COMMERCIAL AND INDUSTRIAL INTERESTS
OF THE COMMUNITY AS A WHOLE.

Nature in all her goodness was extremely kind to Gloucester, more so than to most of the cities of the world, which in her natural element possesses unusual features of attractiveness, with exceptional opportunity for industrial endeavor.

GLOUCESTER { The largest salt fishing manufacturing port in the world.

Summer Paradise—Freedom’s Nature Spot.

Gloucester has one of the finest harbors along the Atlantic coast. It has splendid waterfront facilities for manufacturing purposes. Its transportation facilities are an asset to manufacturing—twenty-two trains per day to and from Boston; water transportation to Boston each day of the year, affording sideboard delivery for shipment to New York.

Gloucester already has in addition to its Fishing Interest thirty-four distinct industries that offer all-year-round employment to many workers.

Too Late For This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Gloucester Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product, is wise

The First Place the Buying Public Goes!

Why the City Directory first. It saves time. The ads
are classified. Your customers find you instantly. It's
the logical place for them to go because it's an index to
the city.

Beat Them To It -- Advertise in the NEW CITY DIRECTORY

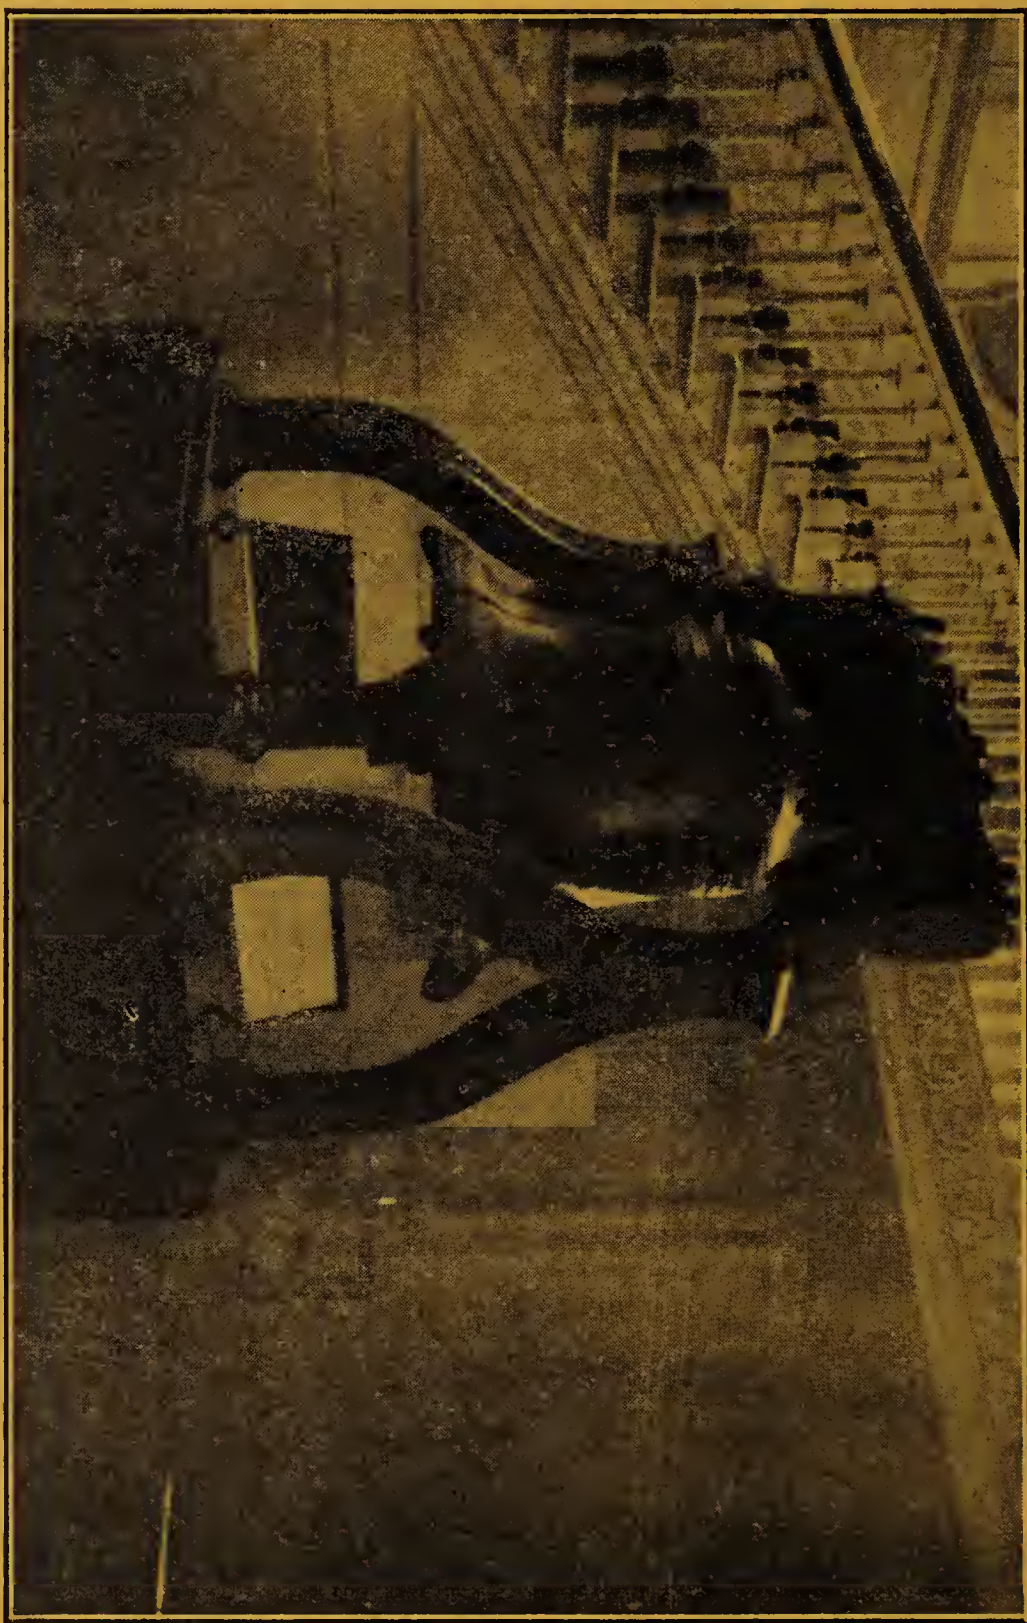

now being compiled. Thousands upon thousands will con-
sult it for a whole year. The price of space is so small,
compared with the valuable publicity you get, that you
can't afford to be left out.

Send Your Sales Letters To “LIVE” Prospects

The mailing lists issued by Sampson & Murdock Co. are constantly revised and brought “up-to-the minute” by competent workers who use the latest city and state directories, in addition to other reliable information, in keeping them as accurate as is humanly possible.

Postage, printing and stock run so easily into money that every user of a mailing list will do well to consider the advantages of a list that has the minimum of dead wood and also the wisdom of having that list revised occasionally by experts.

The benefits of many a snappy sales letter, costly catalogue or other good advertising is lost because of the waste in sending to defunct firms, wrong addresses or other “has beens”.

Our business is designed to save you a large percentage of this waste and if you will communicate with us we will be much pleased to quote you a price on revising your old list or on an entirely new one.

Maybe we can also give you some suggestions on preparing copy that will be of value to you.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.
